Max GS75B

GS75B

The GS75B is the most powerful industrial floor sweeper, designed for cleaning outdoor roads and streets. With a working efficiency of 19,000m²/h, a cleaning width of 1900mm, and a maximum speed of 10km/h, it helps reduce labor costs and boost cleaning efficiency. Ideal for road cleaning and industrial environments such as warehouses and factories.

Features & Benefits

Double your sweeping efficiency

With a wide cleaning path, fast working speed, and a maximum efficiency of 19,000m²/h, this machine ensures optimal performance. The high-efficiency battery, long battery life, large-capacity solution tank and dustbin provide reliable support for continuous operation.

Drive with confidence

Equipped with a backup camera and radar, along with automatic deceleration during turns, this machine enhances safety. Modes for normal, steep slopes and snow conditions.

Enhanced driving experience

Optional fans or air conditioners improve operator comfort, while the shock-absorbing wheels ensure smooth navigation over uneven terrain. The ergonomic seats with adjustable height for both the seat and backrest provide added comfort for extended use.

GS75B Specifications

Cleaning width	1900mm
Central brush width	430*800mm
Side brush width	500*4mm
Working efficiency	19000m²/h
Central brush motor	48/1500V/W
Side brush motor	48/140*4V/W
Dust collection motor	48/218*2V/W
Traction motor	48/2200V/W
Forward speed	0-10m²/h
Water tank	230L
Dust tank	160L
Max gradeability	25%
Filter surface	6%
Machine dimensions (squeegee excluded*)	2300 X 1900 X 1800mm
Machine weight (battery excluded)	930kg
