

KILLIS

Machine Catalogue
2023-2024

Contents

Listen. Understand. Deliver.

After coming to the country as a Hungarian refugee, Mr Killi was, for four years, a door-to-door vacuum cleaner salesman with Electrolux in Manchester. Moving up the ranks, he was incredibly successful, and soon realised he wanted to start his own business.

So, in 1964, he decided to seek out his own premises, and the busy industrial city of Sheffield was perfect to showcase cleaning equipment and products.

By 1986, Killis had grown so much that a new building on Orgreave Road was opened, with offices, a warehouse and the UK's largest equipment showroom; and further expanding, in 2021, to an additional location.

Mr Killi passed away in 2023, but his legacy lives on through his family and everyone who works for Killis. Mr Killi's motto was **listen, understand, and deliver** and we embrace this today as our corporate message.

What's Killis Clean Kind?

As we work toward our own sustainability goals, we look to our brand partners to help support us along the way. The Killis Clean Kind mark represents those brands that give something back or produce equipment that aligns with improving sustainability and a cleaner world.

This could be producing machines which use low amounts of water or power, zero chemical or probiotic cleaning agents, planting trees, donating water, or working towards B-Corp certification.

Forward-thinking cleaning

Range Overview

- ✓ Dual modes, autonomous or manual clean
- ✓ Self docking
- ✓ Large touch screen for accessibility
- ✓ LionsCloud App for tracking and reporting
- ✓ Improve your sustainability

R3 Scrub

R3V01

The R3 Scrub is a compact, robust and practical robot designed for scrubbing or dusting. Its on-board water management system leaves surfaces exceptionally dry, preventing slips. R3 Scrub covers a significant area in a single charge, up to 1700 m², and picks up small debris like food and cigarette butts without choking.

Use R3 Scrub autonomously or manually, whatever fits your requirement. Its easy setup lets you map a large area in just a few taps, while the LionsBot App allows you to study reports and data on cleaning efficiency, perfect for cleaning managers.

Zero-Click Cleaning with MagicTag. Train in Under 30 Seconds

No more long hours and complicated training to get started with your robot, anyone can start cleaning with MagicTag. Push your robot to MagicTag and go!

Rex Scrub
REXS01COMP

The Rex can clean up to 2,500 m² in one hour, cleaning for up to 6 hours. Rex features two highly efficient 16-inch brushes delivering up to 80 kg of downward pressure, while the ultra-dry squeegee suction system leaves floors exceptionally clean and dry.

The all-seeing Rex comes with a 200 m high-definition LiDAR, four depth cameras and three sonar scanners, to provide complete, all-round machine awareness for accurate cleaning and safety.

This machine has been designed to be easily handled, equipped with a large touch screen, operatives can program Rex on the spot or use manually when needed.

81 cm Working Width **5-6 hr** Runtime **80 kg** Brush Pressure

Rex Cylindrical
REXCS01COMP

Rex Cylindrical is specially designed for distribution centres, warehouses and anywhere that requires pre-sweeping. The Rex CS picks up debris with its world-class cleaning mechanism while delivering powerful scrubbing performance.

The 200 m LiDAR range with 3D SLAM technology enables Rex to see further, map better and travel more efficiently. And when it's done, it auto-docks into its own refuel station – getting ready for the next round.

1.27 m Working Width **4.5 hr** Runtime **95 kg** Brush Pressure

Choose Rex For
Distribution Centres, Warehouses, Arenas and Large Event Spaces.

Cobotic & Base

The dream team for large-scale autonomous vacuuming. Used in hotel chains and offices across the UK. Highly customisable and efficient, this is your solution for every-day maintenance vacuuming.

Base Charging Station

BASE6C-BK

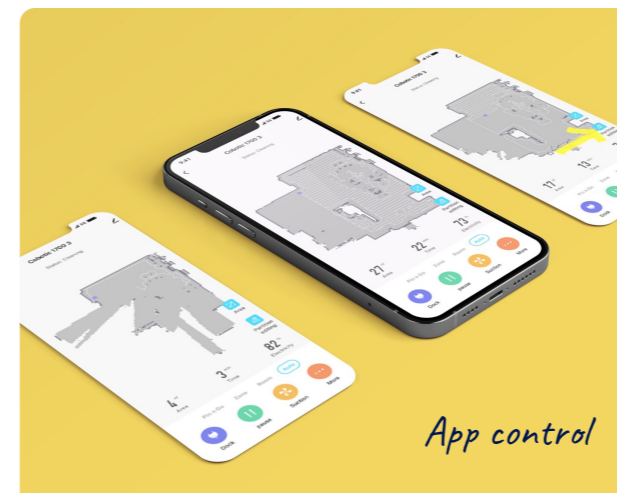

The Base charging station is the ideal companion to the Cobotic 1700. Base is excellent for asset management when you have a large fleet of robots. Its Patented system lets you store and charge six robots simultaneously—Base is easily wheeled from location to location when needed.

When using Base, your Cobotic 1700 robots will return to it ready to be re-docked by an operative. This solution is the perfect match for hotels and other environments where significant vacuuming is needed.

Stabilised Aqueous Ozone (SAO®)

What is SAO®?

SAO® is a powerful chemical-free cleaning solution. It is more effective than bleach and is accredited to BS EN13697. It is safe for anyone to use including asthma and eczema sufferers.

580 Travelodge hotels have a LotusPro dispenser installed on-site. SAO is used as their to meet their

LotusPro

LQFC275-FB

LotusPro is a simple and sustainable way to clean, sanitise and deodorise everyday surfaces. The wall-mounted device produces Stabilised Aqueous Ozone (SAO®) on-demand using only cold tap water and oxygen from the air around it.

Stabilised Aqueous Ozone (SAO®) works by attacking organic matter, breaking it down into smaller particles and suspending it in solution. This reaction is called oxidation — and it's what makes SAO® so powerful. In fact, SAO® exceeds Green Seal Standards (GS-37 and GS-53) as an industrial cleaner.

Additionally, you'll reduce chemicals of concern by 70% and enjoy 25% average ROI cost savings.

Stabilisers

SAO-4 LCA114K-FB	SAO-24 LCA118K-FB
Sanitises for 4 hours	Sanitises for 24 hours
Effective cleaner for 3 days	Effective cleaner for 6 days
Produces 6,000 Litres	Produces 3,000 Litres

Scan for brochure downloads.

Tersano

Tersano develops and manufactures devices that produce Stabilised Aqueous Ozone (SAO) for personal and professional use. SAO is a chemical-free solution made from just cold tap water. Tersano products are used widely across the UK; we recommend Tersano for improving your sustainability and reducing your chemical concerns.

iClean FLO₃

The iClean FLO₃ is a device installed in-line that helps turn ordinary tap water into powerful, chemical-free cleaner, sanitiser and deodoriser to aid in the elimination of dirt, germs and odours.

Taps: extend the shelf life of produce by reducing bacteria and pesticides.

Ice machines: reduce microbes and increase the cleanliness of lines and holding bins.

Beverage lines: prevent pseudomonas and biofilm formation with a non-toxic, chemical-free solution.

Laundry: optimised for cold water usage, saving energy; provides sanitisation and reduces detergent use.

Use iClean Flo₃ for

- ✓ Laundromats
- ✓ Healthcare/Hospitals
- ✓ Education/Campuses
- ✓ Commercial Kitchens
- ✓ Residential
- ✓ Hotels

iClean PRO

LQFC300

350 ml Water Reservoir

iClean mini

LQFC200

150 ml Water Reservoir

The Tersano iClean mini and PRO turns tap water into Stabilised Aqueous Ozone (SAO®), a cleaner, sanitiser and deodoriser that kills up to 99.99% of germs.

Stronger than bleach, SAO® is non-toxic and residue-free. It produces no hazardous odours, fumes or toxic residues compared to traditional cleaning chemicals.

The hand held SAO® dispensers instantly create an oxidising solution safe for people but eradicates the dirt and germs.

Choose iClean mini and Pro for

Domestic and Professional use, Healthcare, Education, Transportation, Government and More.

M3

Short Handle: M3S
Medium Handle: M3M
Long Handle: M3L

2-3 hr
Runtime

360
RPM

M3 combines industrial cleaning machine power with compact size to create a small floor scrubbing machine for tight cleaning challenges.

Deep clean confined, hard-to-reach spaces and experience outstanding results every time. Available with short, medium and long handles, please ask for details.

JET

Machine Only: MSJET
Starter Kit: MSJET3UK

2-3 hr
Runtime

360
RPM

The JET3 has all the features of the M3, but offers additional on-demand solution application—releasing the perfect amount of liquid for unstoppable scrubbing.

JET3 is great for scrubbing tile and grout, cleaning carpet and more. Its compact size allows JET3 to fit into tight spaces that other commercial floor scrubbers cannot reach.

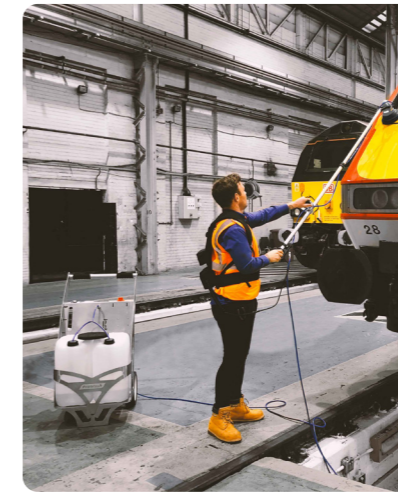

PROWASH

MSPROWASH

8 hr
Runtime

8 L
Flow per
Minute

360
RPM

Apply chemical at high level and let PROWASH do the scrubbing while gravity pulls down the chemical. Gently move PROWASH from side to side and easily rinse with on-demand fresh water.

The cleaning results from 360 rpm are incredible, making light work of heavily soiled surfaces. PROWASH is excellent for cleaning vinyl siding, cladding, guttering, commercial signage, trucks, trains, planes, boats and any large vehicle.

- ✓ 4 x faster scrubbing than manual methods.
- ✓ Capable of spraying chemical, ideal for when using chemical is a must.
- ✓ Save chemical cost by setting your percentage and only spraying when needed.
- ✓ 360 rpm drastically cuts exhaustive manual labour.

BLADE

Handle: MSBLADEIH
Frame: MSBLABEF

The ultimate spray mop system attaches Ultra-Microfibre to the Power Squeegee. Sharp, flexible squeegee blade effortlessly leaves floors instantly dry. This squeegee mop is designed to produce phenomenal pressure, making it the best way to deep clean tile floors.

Choose from three mop heads, S-FIBRE for rough floors, G-FIBRE or smooth floors and A-FIBRE to absorb up to 500 ml of liquid.

600 ml **500**
Capacity Wash Cycles

Transform your scrubber dryer with FORCE

FORCE Kit

MSFORCEKIT

Transform your large scrubber dryer into the ultimate performing cleaning machine by adding FORCE. Attach FORCE to your scrubber dryer to tackle the areas the scrubber can't get to.

The smartly designed single hose carries power, solution and suction to FORCE from the large scrubber dryer. FORCE works with your scrubber dryer to deep clean and dry all areas.

- ✓ Reach all areas in one clean
- ✓ Attaches to any scrubber dryer
- ✓ Complete fitting kit

Bissell Commercial

Bissell has long been in the domestic market, with machines a household name. Bissell expanded into the Commercial market with equipment developed from 145 years of knowledge and expertise. This range offers a strong brand name with the robustness needed for commercial application.

EscaTEQ

Escalator Cleaning Tools

Range Overview

EscaTEQ is an innovation design lab that manufactures easy-to-use, cost effective escalator cleaning tools.

All their tools are specifically designed for escalators and moving walkways.

Riser-TEQ

This lightweight, easy-to-use tool and pad system allows rapid and effective riser cleaning. Pads are easy to mount and remove and are washable for re-use.

Tread-TEQ

Coming in various sizes, Tread-TEQ does not require the escalator to be shut off and does not require an external power source. It is easier to use than a mop and requires less effort than a broom.

Clean-TEQ

Formulated to dissolve oil, grease and mineral soiling. Clean-TEQ contains no phosphates, butyl, bleaches, NTA, chlorine or ammonia and is alkaline free.

Rail-TEQ

This hand-held cleaning tool is designed to thoroughly clean escalator or travelator handrails safely, quickly and effectively.

Medusa

204002

Battery sweeper

2 L
 Capacity

45 min
 Runtime

The Medusa is an industrial battery-powered sweeper. Quick, quiet and cordless cleaning for all surfaces, indoors and out. It is able to adapt to any surface, hard and carpet. It can vacuum objects with a diameter of up to 2 cm, and with its lightweight and compact dimensions, the Medusa can reach "hard" spaces along edges and even small corners.

Ideal For

Quick pick up in entryways and high traffic areas, offices, airports, warehouses, plus many more.

Craftix

11832

Safety vacuum

35 L
 Capacity

The Sprintus Craftix M is a certified safety vacuum cleaner for areas where hazardous dust is produced. It has a constant high level of suction power, filtering the dust to ensure maximum health protection for the user.

- ✓ For dusts of dust class L and M
- ✓ Standard anti-static equipment for extracting large amounts of fine dust
- ✓ Patented HEPA 13 cartridge filter
- ✓ The suction power is monitored by a warning device with an acoustic and visual signal

Wet vacuums and extraction

80 L
Capacity

Ketos 81/2

112002

The Ketos 81 is a wet and dry vacuum with amazing performance and large 80 litre volume. Its wear-resistant plastic makes it ideal for commercial use. The Ketos is equipped with a blower function on the back side of the machine, activated by inserting the vacuum hose.

Artos

116006

30 L
Capacity

The Artos is perfect for cleaning buildings, industrial facilities, and workshops due to its power, compact size, and robust design. Its features include a cyclone water separation system with a reliable floater system.

The wide floor nozzle is extremely user-friendly and can be easily converted from a wet floor nozzle to a dry floor nozzle.

Waterking

109500

45 L
Capacity

The Waterking XL is ideal for thorough cleaning, ensuring sufficient performance and amazing results. Innovations include a locking brake on the sturdy chassis, preventing the vacuum cleaner from rolling away during use. The large, easy-to-remove push bar allows for comfortable handling and easy transport. With the standard drain hose, accumulated dirt is washed away, leaving no residue.

N51/1

110500

Specialist Machine

Fit for emergency service use

50 L

Capacity

The Sprintus N51/1 KPS is a high-performance pump vacuum. It can pump out water after floods, main breaks, and many more cleaning duties. The 50 L container is ideal for tough professional use. The integrated pump has a flow volume of up to 14,000 litres per hour and can be directly attached to the vacuum power socket.

Single-disc scrubbing

Zeus

206003

The Sprintus Zeus is a single-disc orbital floor cleaner, for professional cleaning of hard surfaces and textile floor coverings.

The Zeus holds a 10 litre freshwater tank which sits directly on the machine, ensuring an optimum contact pressure. The tank can be removed, working efficiently beneath objects with a low ground clearance of 10 cm.

The Zeus is easy to operate, enabling inexperienced users to work safely. It is also easy to transport and folds down for space saving during storage.

Upgrade the weight kit up to 64 kg.

WORKING IN PARTNERSHIP WITH KILLIS GIVING YOUR BUSINESS THE POWER TO GROW

Kennet Equipment Leasing have been working with KILLIS for many years providing competitive finance solutions for their customers and resellers.

Kennet are one the UK largest equipment finance companies, established in 1990. Like KILLIS, we have helped thousands of businesses across the UK to renew, replace or add new equipment to continue to grow.

★ Why consider finance?

- Options for Interest Only Payments, Lease, Operating Lease, Hire Purchase and many more
- Minimal cash outlay with low or no deposit required - funding from £1,000 upwards.
- Flexibility in payment terms and equipment type
- Fast funding turnaround times – Applications dealt with in-house.
- Tax benefits – Lease Rental Payments could be 100% Tax Deductible!
- In most cases the cost of leasing is deductible as a business expense, reducing your overall tax bill. This could mean a saving of 19% - 25% of the lease payments depending on your profit band and rate of tax applicable to your business.*

Excentr

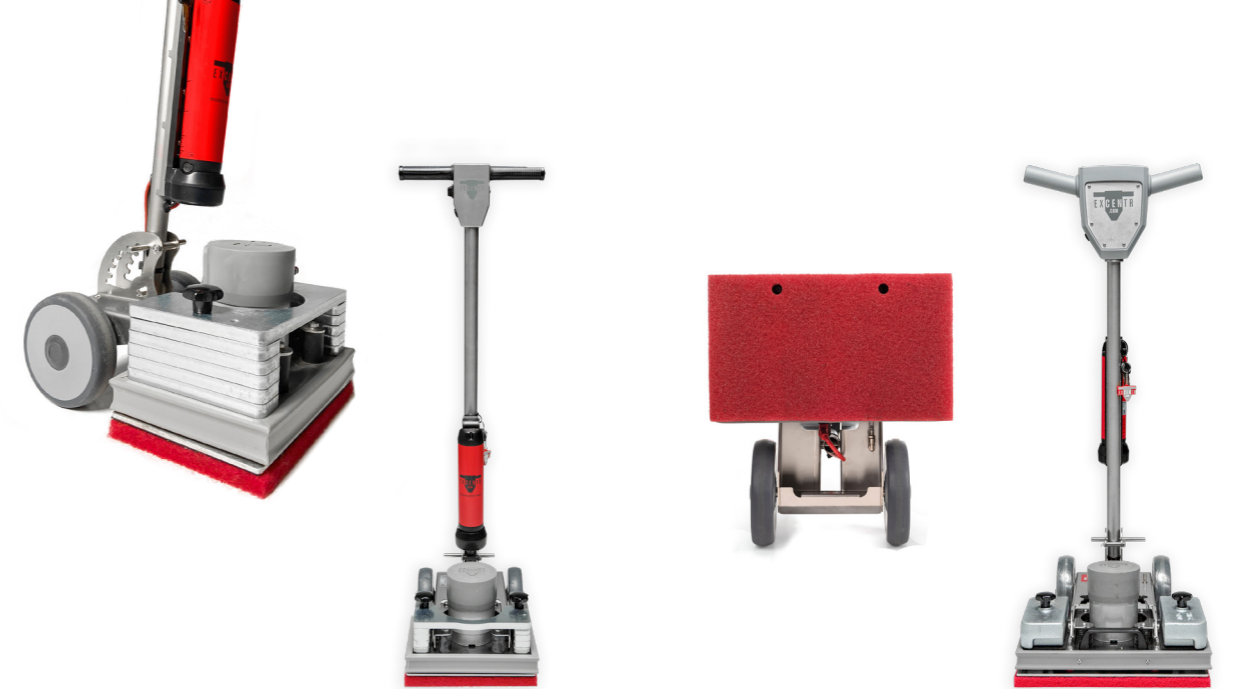

EXCENTR (pronounced Ex-cen-ter) manufactures, in their words, Badass Cleaning Machines—and quite frankly, we think so too. They are tough, heavy-duty, and make light work of the dirtiest jobs.

Scan for brochure downloads.

Badass cleaning by Excentr

Range Overview

- ✓ Especially tough and hard-wearing
- ✓ Industrial floor specialists
- ✓ Battery and mains powered choices
- ✓ Perfect for extreme dirt build-up

30-20

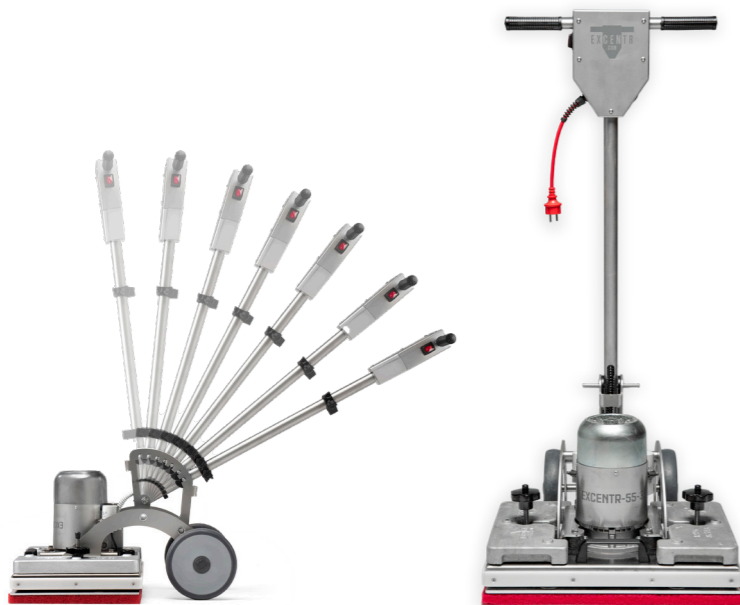

30-20 (Mains):	100006.2
30-20+ (Extra Weight):	100009.0
30-20+B (Battery):	100028

The Excentr 30-20 is the most compact version of the Excentr. Suitable for cleaning small or difficult areas and is used by many professionals as a supporting machine for the Excentr 55-35 for edge build-up and tricky corners. Coming in three different versions, mains operated battery or with extra weight, you are sure to find the right machine for your daily clean.

40-25

40-25 (Mains):	100030.5
40-25B (Battery):	4025B

With a 43 cm wide scrub deck, the Excentr 40-25 is the alternative to the single-disc machine, ideal for cleaning, deep cleaning, stripping and light renovation of small to medium-sized surfaces. The 2850 rpm, in combination with a pad pressure of 45 kg, guarantees fantastic results in very little time. In addition, the Excentr 40-25 is very easy and ergonomic to use. In most cases, you work without the addition of chemicals.

55-35

100001.5

The Excentr 55-35 is the showpiece of Excentr, stainless steel, solid and particularly effective thanks to 2850 oscillations per minute. The perfect balance and adjustable handle makes working with this machine simple and ergonomic. Anyone can operate this machine, even without experience or technique. With extra weights the pad pressure can be adjusted between 39 and 110 kg.

39 - 110 KG

Pad Pressure

Perfect match pad—for every floor type

Daily 35B

100019.1

The Excentr Daily 35B is designed for professionals who expect big results from a small scrubber dryer. With one battery, you can intensively work for up to 35 minutes.

The hinged handle, in combination with the flexibility of the squeegee, makes the machine very

short, so it can also be used in small spaces. With 2850 oscillations/minute and a pad pressure of almost 20 kg, the cleaning power of Daily 35B is outstanding compared to other compact scrubbers dryers.

The Daily 35B also features a 7 L clean water tank and 9 L of waste water.

20 kg **35 min**
Pad Pressure Runtime

Orbot Range

Orbot focuses on low-moisture orbital floor cleaning technology. Their products can solve difficulties with long drying times, recurring stains, sticky residues, mildew, downtimes, extensive set-up procedures, and operator fatigue.

i-team Range

i-team has an extensive range of cleaning equipment; their 4D cleaning approach covers floors, walls and ceilings, furniture and the air—with everyday vacuuming to specialist cleaning. They have a unique plug-and-play battery system, which makes i-team equipment very desirable to everyone in the cleaning process.

Change the way you think about cleaning

i-team's products are designed with the people who use them in mind. They're intended to improve health, safety and job satisfaction.

i-team produce highly ergonomic equipment for extraordinary efficiency. This allows the operator to perform better in their job with less effort.

Their extensive range covers all tasks from the everyday, like vacuuming and scrubbing, to the specialists, such as chewing gum removal, slip testing and infection control.

i-team's philosophies on cleaning align with our own, and they are here to improve health and the joy of cleaning.

i-mop

The i-mop is a revolutionary upright scrubber dryer that offers extraordinary manoeuvrability and breakthrough operational benefits.

Today, most floors are still being cleaned manually with a mop and bucket. But mopping is labour intensive, poses slip and fall hazards, and often just spreads rather than removes soil and contamination. Auto scrubbers do a better job, but they usually only work in large and open spaces.

By totally rethinking how things are done, the i-mop offers efficient mechanised cleaning in areas that up until now could only be done by hand.

Which i-mop is right for me?

With three models and a wide range of pads and brushes it's guaranteed that there's an i-mop that fits your needs. Speak with one of our team to find your fit and book a demo.

	i-mop XXL	i-mop XL	i-mop lite
Application	Indoor, hard surfaces only		
Practical Performance	1200-1800 m ² per hour	1000- 300 m ² per hour	1000-1300 m ² per hour
Brush Speed	350 RPM	350 RPM	500 RPM
Brush Pressure	32 kg	22.5 kg	13 kg
Operation Width	62 cm	46 cm	37 cm
Size (L x W x H cm)	64.5 x 47 x 120	47.5 x 44 x 120	34 x 43 x 120
Weight*	21 kg	18.5 kg	11.5 kg

Batteries and Charging

Power

A set of i-power batteries works for all i-team battery powered machines—easily power your fleet. Choose either i-power 9, 12, 14, or 20, depending on your needs.

Charge

Team your i-power batteries with i-charge 2 or 9. Using i-charge 9 gets you working faster than ever so you're always on the go.

i-stack®

With space in short supply, the i-stack® is your space-saving solution. The vertical wall-mounted charging station helps you better manage your batteries in one place. Easily attach, store, and power.

Battery & Charging Help

Speak with one of our team for your correct battery and charging information.

i-drive
I-DRIVE/UK

The i-drive is a compact ride on scrubber dryer. Its key feature is its smart design to carry an i-mop lite on its back, allowing the operator to exit the vehicle and clean more detailed areas.

The turning radius of just 1.6 m makes this scrubber dryer extremely flexible, offering excellent manoeuvrability even in supermarket aisles. The i-drive can clean large, medium and small areas in no time.

The battery-sliding tray has space for six i-power 14 batteries which give you a run-time of 80 minutes. Switch out a set for continuous runtime. Upgrade to i-power 20 batteries for a longer runtime.

610 mm Working Width
1400 m² Per Hour
25 kg Pad Pressure

i-remove

Standard: IGM.I-V.0000B
Mini: IGM.I-V.0000M

The i-remove is a self contained backpack designed for the effective removal of chewing gum. The specially designed brush emits a pH neutral and safe enzyme steam mixture to dissolve chewing gum.

You can also remove stains, sticky labels, ink, ketchup, fungus and mud. i-remove is part of the plug-and-play system and works on i-power batteries. Need to work inside a smaller space or building? Then choose the i-remove mini, a smaller and lighter weight version of i-remove.

i-remove is ideal for

Public Organisations and Public Spaces, Education, Transport and Healthcare Facilities.

i-suit

I-SUIT SET

The i-suit is a specially designed window cleaning aid that reduces work's physical strain by 50%. No more shoulder injuries and back pain while washing the windows. Ergonomically designed, the i-suit disperses load evenly for a comfortable experience with more effortless movement.

i-wash

Meet i-wash, a family of lightweight carbon water-fed poles and accessories for professional window cleaners. i-wash is one of the most advanced pole systems available on the market. It is user-friendly, efficient and versatile with its click-on click-off system.

The i-wash poles have been designed with ergonomics in mind, relieving strain on your body, helping you to work more safely.

Basic Reach	I-WAH.BASICREACH	Master pole 26.5 ft
	I-W.PROREACH	Master Pole 26.5 ft

	I-W.EXTENSION.2	5.9 ft Extension
Brushes	I-W.BRUSH.1	24 cm - Medium
	I-W.BRUSH.2	24 cm - Soft
	I-W.BRUSH.3	26 cm - Medium
	I-W.BRUSH.4	26 cm - Soft
	I-W.BRUSH.5	45 cm - Medium
	I-W.BRUSH.6	45 cm - Soft

i-vac 4B

IME.I-V.0000C

The i-vac 4B is a lightweight, cordless backpack vacuum that covers twice the floor space compared to standard vacuum cleaners. Get freedom of movement, especially in confined spaces. i-vac 4B is part of the plug-and-play system.

i-vac 5

C05.I-V.1115C

Small and compact, the i-vac 5 is battery powered, allowing it to go wherever you go. It has a high powered motor that reaches 80% of the suction power a cable operated vacuum uses without being tied down to one place.

i-vac C6

C06.I-V.1115C

The C6 tub vac is a heavy-duty mains vacuum designed for use in most areas, commercial or domestic use. It can adapt to the environment, choosing between the high power or low decibel setting, the low power is great for operational daytime cleaning in busy offices.

i-vac C9

C09.I-V.1115N

The i-vac C9 is a cordless vacuum with great cleaning performance. With a flexible run time, with the using i-power batteries, it guarantees a longer run time than other cordless machines and allows the cleaning operative the freedom to clean everywhere they go.

i-know Kit

IKW.I-V.0000C

The i-know slip tester is great for testing how slippery a surface is. The i-know helps prevent accidents; unsafe slippery floors often result from cleaning floors, causing significant injuries. The slip alert can help prevent slip accidents.

Window Cleaning Supplies

Find chemical, cloths, squeegees and more at www.killis.co.uk

i-air PRO

I-AIRPRO.EU/S

Improve indoor air quality with i-air PRO. This stand-alone unit delivers MERV 19 class air. For medium to large spaces of up to 500 m². Filters solid contaminants and VOC's.

i-matt

K.3.I-MATT

i-matt captures water and dirt at the door to keep floors cleaner all day long. With EFM™ Absorbent Technology (Entangled Fibre Matrix), the super-thin material spreads out water, so the mat dries fast. Interlocking fibres trap dirt to prevent it from being tracked in.

The i-team Floor Safety System represents a holistic approach to floor safety. i-matt works together with i-mop and i-protect to give you everything you need to keep your mats working at peak performance at all times—removing dirt, dust and water from your shoes, maintaining your floors.

Roll size: 91.5 cm x 300 cm

i-scrub 21B

Kit: ES2.I-V1210C

Hand held: ES2.I-V1131C

The i-scrub is equipped with a 360-degree motion head and double disc action, making the i-scrub a brilliant machine to scrub any surface with power. With the flexibility to clean in vertical positions, i-scrub is excellent for deep cleaning walls; it's also compact enough to deep clean small spaces.

Available as a hand-held unit.

i-cover

1L Ex. Batteries: IM10.FCT.0000B

2.5L Ex. Batteries: IM25.FCT.0000B

2.5L Inc. Batteries: IM25.FCT.1115B

The cordless i-cover is an advanced cold mist generator for disinfecting surfaces fast. Fill the tank with eco-friendly and safe liquids, push the trigger and start.

i-fogger

Ex. Batteries: IFGFCT.0000B

Inc. Batteries: IFGFCT.1115B

The i-fogger is a simple but practical tool to disinfect spaces quickly. The mobile unit creates and disperses a disinfectant aerosol (mist) to reduce the number of airborne micro-organisms and viruses.

i-light

20W: ILLFCT.0000B

50W: ILXLFCT.0000D

The i-light is a portable light, powered with i-power batteries. With a fully adjustable head, it's great for lighting up areas on the job.

To discuss your service needs, please speak with your account representative or one of our team today.

We Offer

- ✓ One-off repairs and servicing
- ✓ Commercial and domestic
- ✓ Long and short term equipment hire
- ✓ UK wide engineer support
- ✓ Service packages with SLA's

We're Open:
Mon - Fri: 8.30 am - 5.30 pm

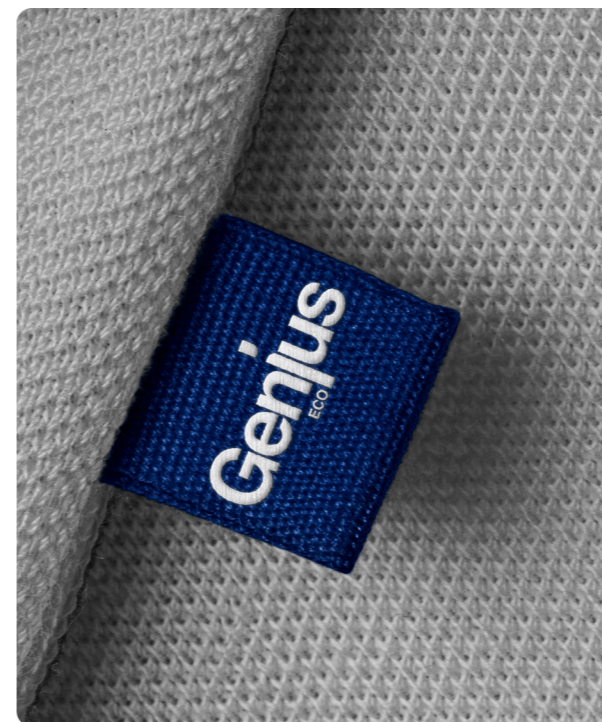

For triaging, service, and hire enquiries please call 0114 269 86 86 (Opt. 3)

Coming Soon...

Timberline

We are delighted to announce that we will sell the Timberline range of equipment. Imported directly from the US, these machines will fill a demand in the market for super large, extra-robust scrubber dryers.

Expected to be available from January 2024; if you are interested in learning more about this range please contact your account representative.

Genius

Our brand-new range, Genius, will hit the market in 2024. The range will encompass chemicals, janitorial and eco-friendly products.

Any products that are currently branded as Active will be re-branded as Genius, and we will be adding many more products to this line.
