Max G20^{B+}

G20^{B+}

The G20^{B+} is a compact, walk-behind scrubber dryer ideal for smaller or moderately sized areas. This is a go-to choice for many applications where size is a concern.

Features & Benefits

Balanced load-bearing design for excellent handling experience

The G20^{B+} is engineered with an evenly distributed weight system that enhances stability during operation. This balanced design not only reduces operator fatigue but also makes the machine exceptionally easy to guide, even in narrow aisles or crowded environments.

Digital control system, high working efficiency

A user-friendly digital control panel simplifies operation and minimises training time. Operators can quickly adjust settings, monitor machine status and manage cleaning functions with ease.

Ergonomic design and flexible to operate

Designed with the operator in mind, the G20^{B+} features comfortable, ergonomic controls and a layout that promotes natural strain-free operation.

It's simple, easy-to-reach functions allow users of varying experience levels to operate the machine confidently. The compact body and flexible steering make navigating around obstacles effortless, ensuring effective cleaning in challenging or confined areas.

G20^{B+} Specifications

Working width	510mm
Squeegee width	780mm
Working efficiency	2050m ² /h
Brush pressure	35kg
Brush rpm	180rpm
Brush motor	DC24V/550W
Vacuum motor	DC24V/390W
Solution tank	45L
Recovery tank	55L
Machine dimensions*	1170 X 550 X 975mm
Battery	12V*2
Equipment weight	86kg

*Dimensions L | W | H
