

Really Clean Floors. Really Fast.

KAIVAC® AUTOVAC™ SYSTEM

KILLIS

KAIVAC®

FEATURES + BENEFITS

- + Removed over 99% of targeted soil in tests performed by a major university.
- + Certified by the National Floor Safety Institute (NFSI) for providing high traction.
- + Battery model cleans 20,000+ sq. ft. an hour and corded version cleans 16,000+ sq. ft. an hour.
- + Can be used for cleaning, degreasing, stripping, waxing and more.
- + Breaks down for light, easy transport and capabilities can easily be expanded by adding components and tools.
- + Lifetime warranty on the vacuum motor with exclusive use of Kaivac cleaning chemicals.
- + Universal Power Pack allows you to share batteries across all Kaivac battery-enabled systems.

KAIVAC® AUTOVAC™ CLEANING SYSTEM

Looking for a fast, simple approach to cleaner, safer floors? We’ve got you covered. The AutoVac System is perfect for high speed cleaning of a wide range of hard surface floors, such as hallways, entranceways, cafeterias, lobbies, warehouses, fitness areas and more.

Just open the spigot to release the cleaning solution, turn the vacuum motor to “on” and start walking to evenly spread the solution across the floor while simultaneously vacuuming, and... DONE. It’s truly that simple. The systems nimble manoeuvrability and low maintenance requirements allows floors to be quickly cleaned and dried, creating an inviting appearance that keeps employees motivated and customers coming back.

Kind of a no-brainer, right?

KAIVAC AUTOVAC CLEANING SYSTEM

The AutoVac is an automated high performance floor cleaning machine that’s three-four times faster than a mop, but instead of spreading soils, it actually removes them completely from the floor surface. Even more impressive, it cleans as well and as fast as a traditional walk-behind or ride-on auto scrubber at a fraction of the cost!

KAITUTOR™ ONBOARD TRAINING

Video training system leads the operator through the cleaning process.

37.8 LITRE TROLLEY- BUCKET WITH CONVENIENT “THUMB THROTTLE”

Trolley-Bucket holds 37.8 litres of clean and fresh solution. Elongated spigot handle with “thumb throttle” allows users to control the spigot flow at their fingertips.

28” (71 CM) DROP-DOWN SQUEEGEE HEAD

Efficiently removes soils and solution, leaving floors clean and dry.

MICROFIBRE PAD AND FRAME

For evenly spreading cleaning solution.

INDUSTRIAL STRENGTH VACUUM MOTOR

Enables unmatched soil removal.

37.8 LITRE VACUUM TANK WITH EASY- FLUSHING DUMP HOSE

Vacuum tank holds 37.8 litres of recovered cleaning solution. Dump hose allows quick and ergonomic draining of vacuum tank contents.

NO-DRIP STORAGE TRAY

Convenient location to store optional vacuum wand or speed spreader.

Protected by multiple US patents. Multiple patents pending.

FLEXIBLE POWER OPTIONS

LITHIUM-ION BATTERY

Allows free and quick movement at any time of the day throughout the facility.

CORDED

Optional AC model and GFCI extension cord enables long-range cleaning.
