- Performance Glass
- Mini Scrub Hand Scrubber

Essential Microfibre Cloths

- 40cm x 40cm
- 230gsm
- 80% Polyester, 20% Polyamide
- Matching colour hem and doubled stitched edges
- Available in blue, green, red and yellow

Featuring one of the industry's most widely used and trusted fabric textures, these cloths provide excellent cleaning efficiency across a broad range of applications. Engineered for durability, they offer superior dimensional stability and outstanding resistance to deformation, ensuring consistent performance and a longer product lifespan.

Performance Microfibre Cloths

- 40cm x 40cm
- 350gsm
- 70% Polyester, 30% Polyamide
- Reinforced double stitched edges
- Available in blue, green, red and yellow

This cloth offers a noticeably softer and more premium hand feel, enhancing overall user comfort and handling. Its advanced fabric construction provides superior decontamination performance, enabling more effective removal of dirt, grease, and stubborn stains. With excellent water absorption capabilities, the fabric quickly absorbs and retains moisture for improved cleaning efficiency.

PU Microfibre Cloths

- 37cm x 37cm
- 320gsm
- 68% Polyester, 17% Polyamide and 15% Polyurethane
- Ultra-absorbent and tear-resistant
- Available in blue, green, red and yellow

Compared to conventional cleaning fabrics, our PU Microfibre Cloths offer superior absorbency, enhanced durability, and outstanding cleaning efficiency. Featuring ultra-fine microfibre structure the PU Microfibre Cloths efficiently traps dust, dirt, grease, and moisture while leaving no lint, streaks, or residue behind.

Coffee Bean Cloth

- 40cm x 40cm
- 350gsm
- 80% rPET, 20% Polyamide
- Superpol coffee bean fabric
- Highly absorbent fibres

Crafted with advanced microfibre technology, this premium cleaning cloth delivers exceptional absorbency, quickly capturing and retaining moisture for efficient drying and cleaning. Its ultra-soft, lint-free texture effortlessly removes dust, spills, grease, and fingerprints from a wide range of surfaces without scratching or causing damage.

BROWN
RM2501

Essential Glass Cloths

- Available in 40cm x 40cm (RM2302) and 70cm x 40cm (RM2301)
- 320gsm
- 80% Polyester, 20% Polyamide
- Double stitched edges
- Lint-free and streak-free

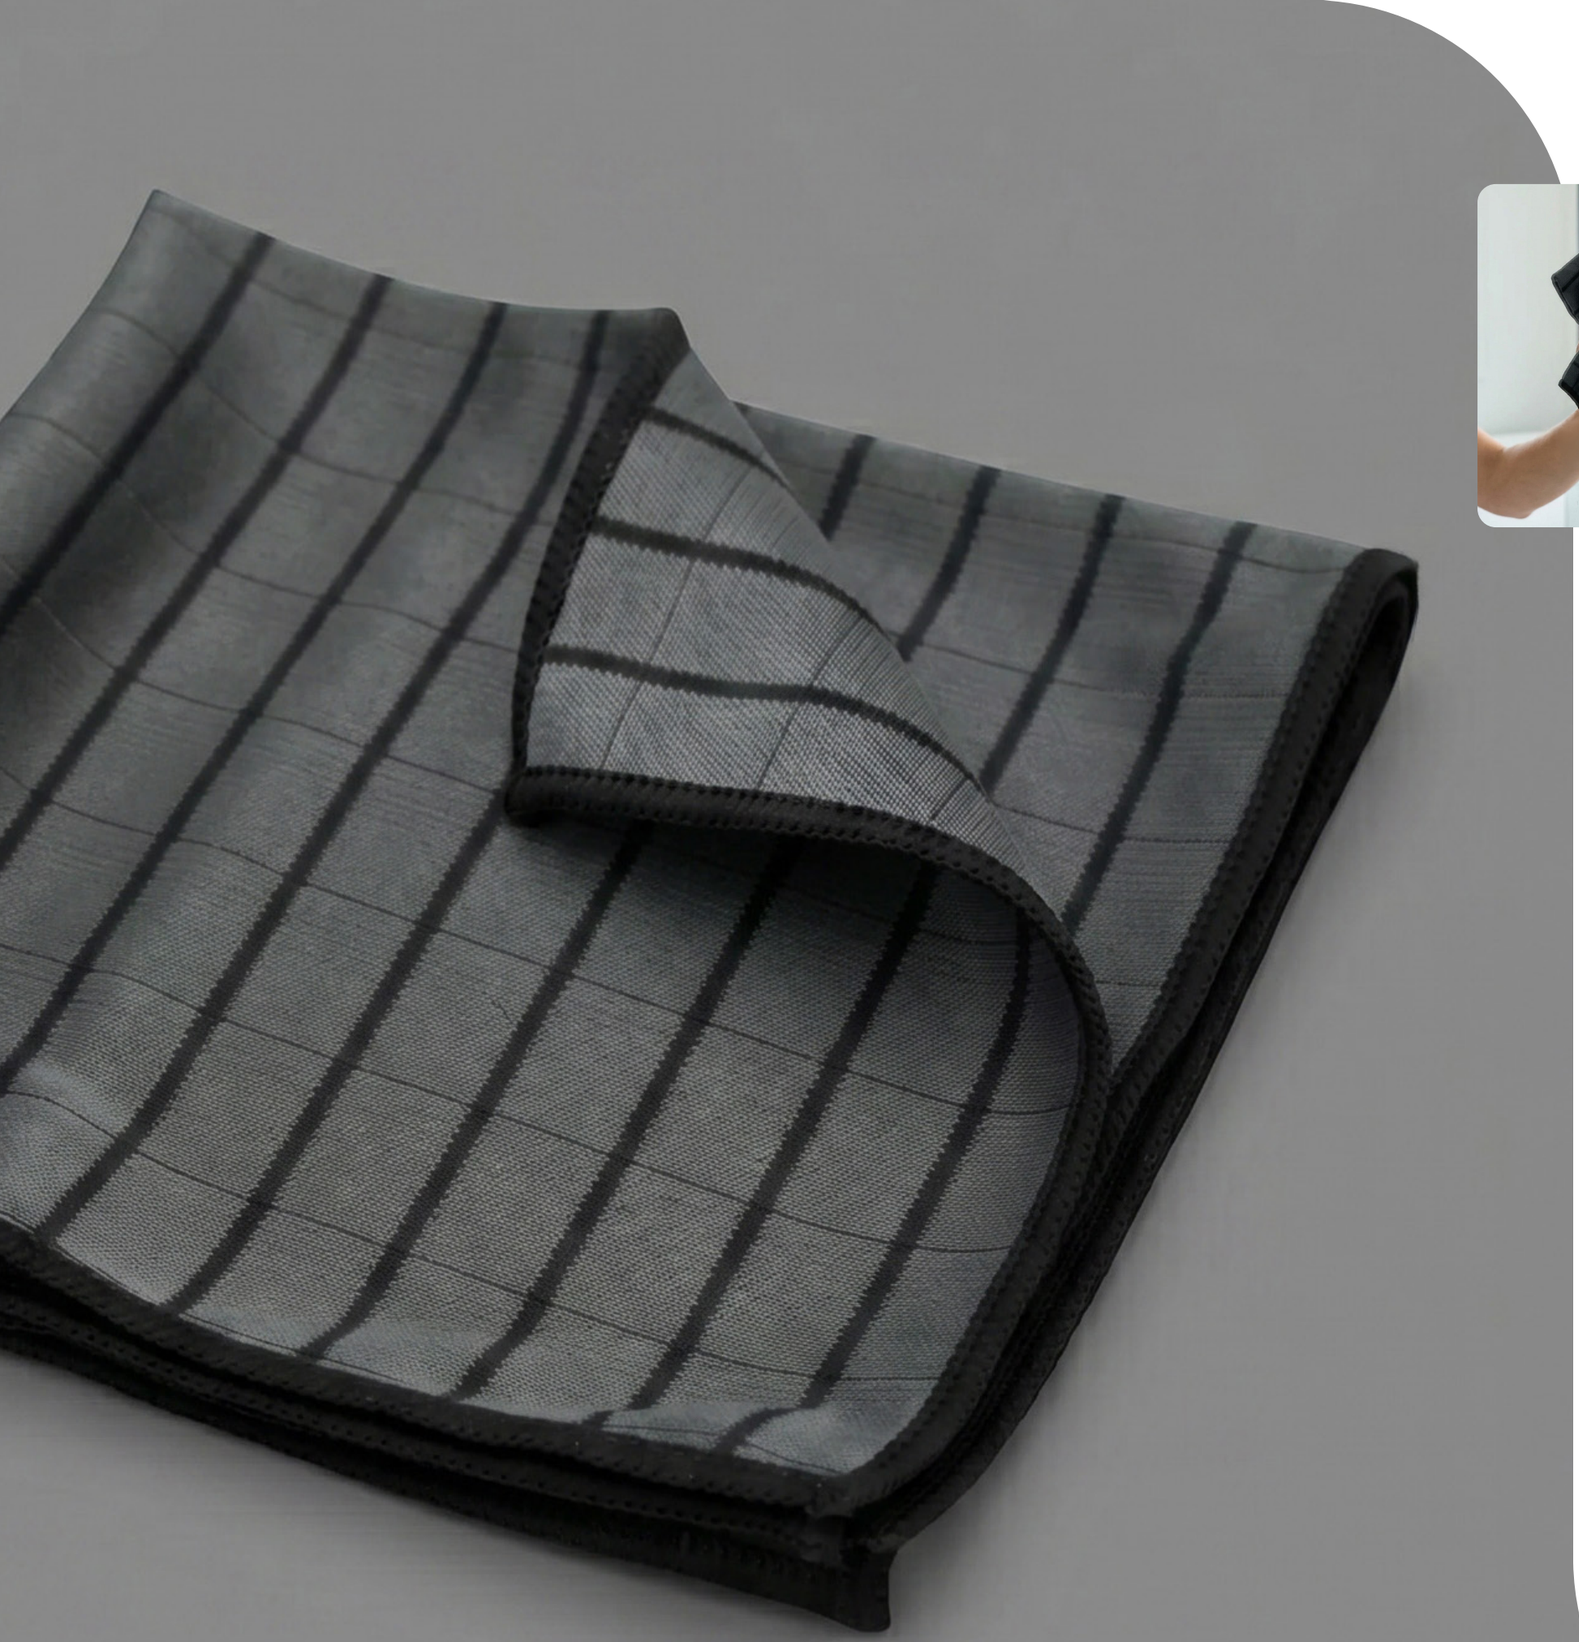

The Essential Glass Cloth is specially designed to deliver a flawless, glossy finish on all types of glassware and smooth surfaces. Featuring a luxurious appearance and ultra-fine fibres, it effortlessly polishes glass to a crystal-clear shine while enhancing its overall elegance. Its lint-free and streak-free design ensures a crystal-clear shine with no residue, marks, or traces left behind.

GREY RM2302

GREY RM2301

Performance Glass Cloth

- 40cm x 40cm
- 400gsm
- 80% Microfibre, 20% Carbon Fibre
- Doubled stitched edges in black
- Ultra-fine microfibre weave
- Ideal for multiple surfaces

The Performance Glass Cloth is designed for lint-free, streak-free results on every surface. Soft, durable, and highly absorbent, it makes cleaning faster, easier, and more comfortable with exceptional polishing performance. Ideal for detailed cleaning of windows, mirrors, glassware, screens, stainless steel, and other smooth surfaces and suitable for both wet and dry use.

GREY
RM2303

Mini Scrub Hand Scrubber

- 14cm x 10cm
- 400gsm
- 70% Microfibre, 30% Polypropylene
- Durable construction

Built for long-lasting performance, this hand scrubber is designed to withstand repeated use on tough cleaning jobs without losing its effectiveness. Its durable construction resists wear and tear, while the high-quality fibres maintain their scrubbing power over time. Whether tackling bathroom tiles, grout lines, floors, or walls, it delivers consistent results use after use, making it a reliable cleaning tool for both everyday maintenance and deep-cleaning tasks.

Flat Mop Frame

- Available in 30cm (RM1530), 45cm (RM1545) and 60cm (RM1560)
- Lightweight
- Lockable frame
- Removable velcro strips

Designed for durability, efficiency, and ease of use, this premium Flat Mop Frame is an ideal solution for professional cleaning environments. Constructed from high-quality materials, it provides reliable performance for daily cleaning tasks across a wide range of floor surfaces. Whether cleaning tight corners or large open spaces, delivering excellent control, durability, and cleaning efficiency while supporting professional hygiene standards.

Telescopic Handle

- 3 part telescopic handle
- Extends from 75cm to 170cm
- Easy-to-adjust locking mechanism
- Lightweight
- Handle loop for easy storage

Built for versatility and user comfort, this lightweight telescopic handle is designed to help cleaning professionals reach a wide range of surfaces with ease. Its adjustable length and durable construction make it an essential tool for efficient floor and surface cleaning in many environments.

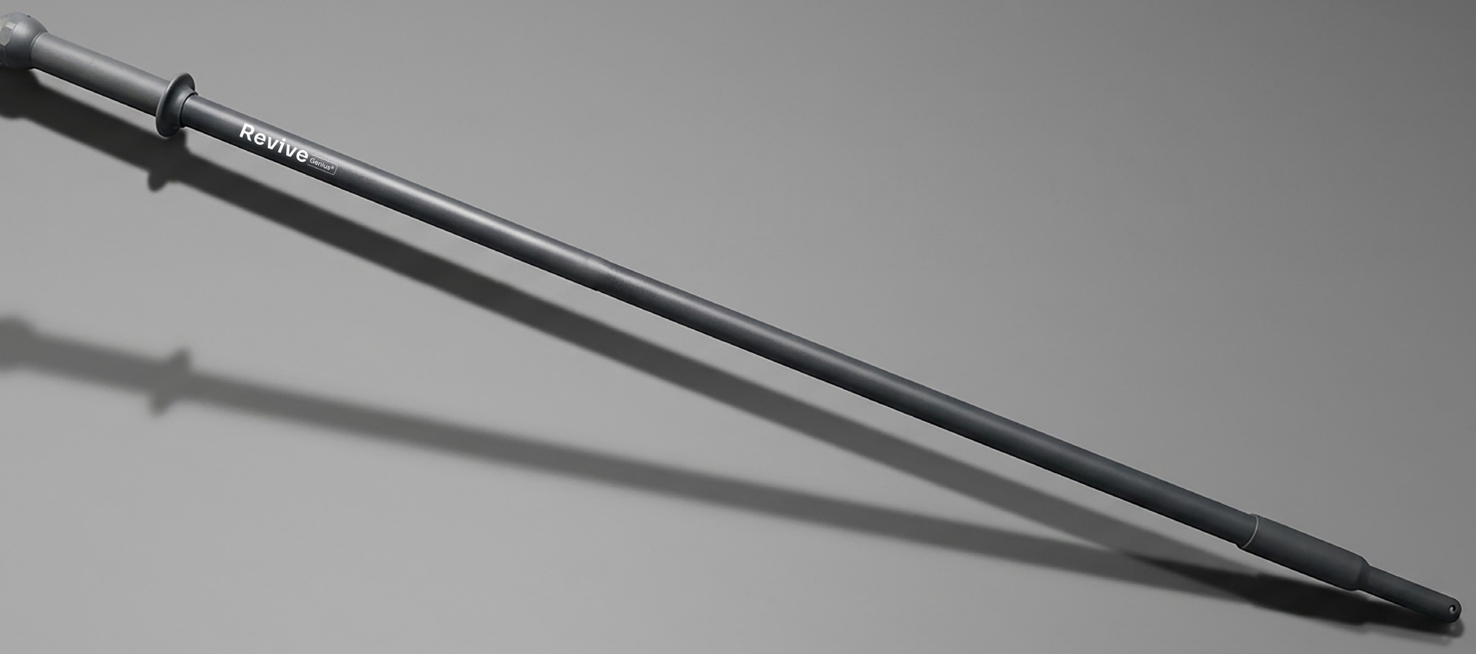

The pole extends smoothly from 75cm to 170cm, allowing users to customise the length for optimal reach and comfort. Whether cleaning confined areas or larger spaces, the adjustable design helps reduce strain and improve productivity.

Spray Handle

- 140cm length
- 600ml internal liquid reservoir
- Triple spray jets
- Vision panel for water level with float ball indicator
- Interchangeable handle button for colour coding (Grey button as standard)

The innovative spray handle delivers controlled moisture exactly where needed. With a built-in reservoir and integrated spray mechanism, it improves efficiency and reduces prep time by dispensing precise amounts of liquid directly onto the floor, minimising waste, avoiding over-wetting, and promoting faster drying times.

Available with colour-coded spray handle buttons to support hygiene management systems by identifying cleaning solutions or designated zones, helping reduce cross-contamination risk.

GREY
RM17140

Spray Handle Buttons

- For use with Spray Handle
- Easy screw fitting
- Easy reach button
- Available in blue, green, red and yellow

The Spray Handle Button plays a vital role in modern floor-cleaning performance. It gives you precise control over when and how much cleaning solution is released, allowing for more efficient cleaning and less waste.

The button connects to an internal trigger system. When pressed, it activates a pump inside the handle, pushing cleaning fluid through a nozzle and out onto the floor, giving precise control, one press for a light spray, or repeated presses for tougher stains that need more solution.

- 80% Polyester, 20% Polyamide
- Super-absorbent and streak-free, crystal-clear finish
- Colour coded tabs support hygiene management systems by identifying cleaning solutions or designated zones
- Integrated loop for hygienic mop removal
- Quick and easy to replace with secure velcro fastening

Designed to make cleaning smooth, streak-free surfaces faster and more efficient, the Glass Mop is the ideal solution for maintaining a spotless shine. Perfect for glass, mirrors, tiles, shower screens, and other glossy surfaces, effortlessly removing smudges, fingerprints, dust, and water marks with minimal effort.

GREY
RM1230

Dust Mop

- Available in 45cm (RM1145) and 60cm (RM1160)
- 80% Polyester, 20% Polyamide
- Attracts and retains dust, dirt, and fine debris
- Colour coded tabs support hygiene management systems by identifying cleaning solutions or designated zones
- Integrated loop for hygienic mop removal
- Quick and easy to replace with secure velcro fastening

The Dust Mop is an essential cleaning tool for keeping hard floors looking their best between deep cleans. Designed to attract, trap, and hold dust, dirt, hair, and fine debris, providing a fast and effective way to maintain a clean and polished appearance across a variety of floor surfaces.

Dust Pro Mop

- Available in 45cm (RM1345) and 60cm (RM1360)
- 80% Polyester, 20% Polyamide
- Microfibre fringe design
- Colour coded tabs support hygiene management systems by identifying cleaning solutions or designated zones
- Integrated loop for hygienic mop removal
- Quick and easy to replace with secure velcro fastening

The Dust Pro Mop combines durability, flexibility, and superior dust collection and mopping performance in one easy-to-use cleaning tool. The microfibre fringe design creates a larger surface area capturing dust, dirt, and fine particles in a single pass, reducing cleaning time while delivering professional results.

Scrub Pro Mop

- Available in 30cm (RM1030), 45cm (RM1045) and 60cm (RM1060)
- 80% PET | 20% Polyamide
- Integrated scrubbing surface
- Colour coded tabs support hygiene management systems by identifying cleaning solutions or designated zones
- Integrated loop for hygienic mop removal
- Quick and easy to replace with secure velcro fastening

Designed for powerful cleaning performance, the Scrub Pro Mop effectively removes stubborn dirt, grime, and stains from a variety of hard floor surfaces. Its integrated scrubbing surface loosens and lifts built-up residue, spills, and scuff marks, while durable cleaning fibres provide effective dirt removal.

Dusting

IN THE RANGE

- Flexi Dust Handle
- Flexi Dust Sleeve

Flexi Dust Handle

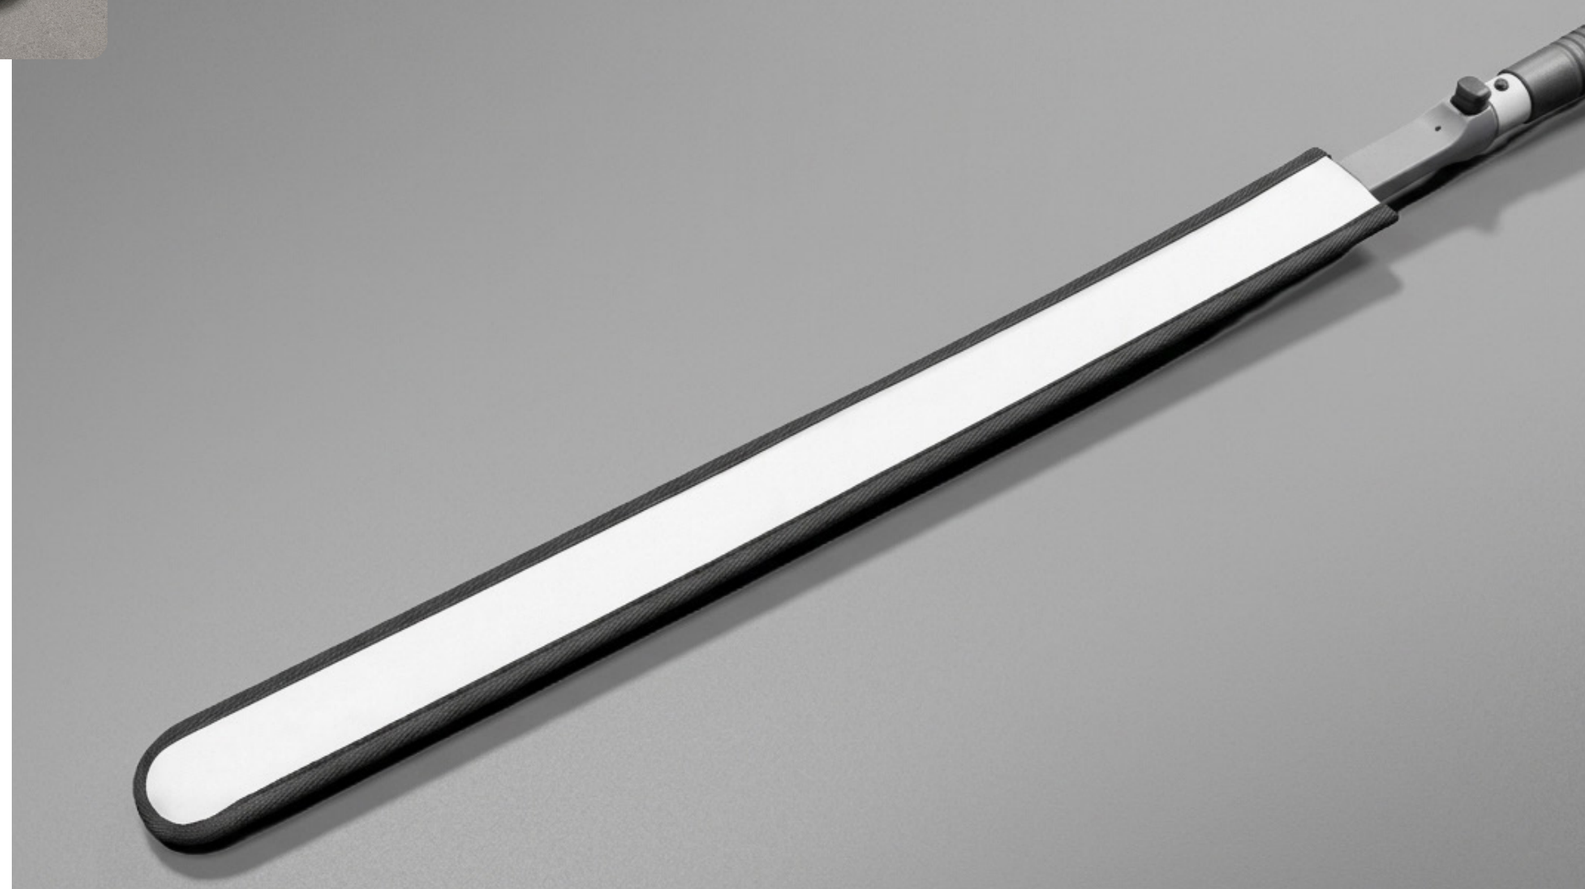

- Available in 45cm (RM1845) and 60cm (RM1860)
- Bendable to assist flat cleaning at high levels
- Lightweight and easy to manoeuvre
- Flexible foam centre
- Compatible with the Flexi Dust Sleeve

The Flexi Dust Handle is designed to make dust removal quick and effective in large, hard-to-reach areas. Its highly flexible construction allows it to bend and adapt to awkward spaces, making it ideal for cleaning behind furniture, above cupboards, pipes, and other difficult access points. The slim profile easily fits through narrow openings, while the flexible frame helps maintain contact with surfaces for thorough dust collection.

GREY

Flexi Dust Sleeve

- Available in 45cm (RM1801) and 60cm (RM1802)
- 100% Polyester
- Attracts and traps dust
- Large sleeve design for increased cleaning efficiency
- Durable, long-lasting performance

The Flexi Dust Sleeve is designed to make dusting fast, effective, and effortless. Made from high-quality microfibre, the sleeve attracts and traps dust, dirt, and allergens rather than simply moving them around, leaving surfaces cleaner with fewer passes. Featuring a large cleaning surface for maximum coverage, allowing you to dust more efficiently with fewer passes. Perfect for furniture, shelving, skirting boards, blinds, and awkward-to-access areas.
