Max G26^{BT}

The G26^{BT} walk-behind scrubber dryer features a large 70L solution tank, making it ideal for cleaning and polishing floors in medium to large areas. Equipped with a powerful traction motor and dual brush discs, it delivers fast and efficient cleaning, saving you time. Powered by two 12V/100Ah AGM maintenance-free batteries, the G26^{BT} provides up to 3.5 hours of continuous operation for extended cleaning sessions.

Features & Benefits

Powerful cleaning efficiency

The 70/80L high-capacity water tanks, dual brush discs, and wider cleaning width help save time and deliver faster, more efficient floor cleaning.

Longer-lasting cleaning

The G26^{BT} battery model features a self-driving system powered by two 12V100Ah AGM maintenance-free batteries, providing up to 3.5 hours of continuous runtime.

G26^{BT} Specifications

Cleaning width	690mm
Squeegee width	860mm
Working efficiency	3100m ² /h
Brush pressure	40kg
Brush rpm	180rpm
Brush motor	DC24/400*2V/W
Vacuum motor	DC24/390V/W
Traction motor	DC24/120V/W
Forward speed max	4.5Km/h
Solution tank	70L
Recovery tank	80L
Machine dimensions (squeegee excluded*)	385 X 720 X 1050mm

*Dimensions L | W | H

User-friendly and convenient operation

The automatic brush load system allows for quick and effortless brush assembly or disassembly with the push of a button, making maintenance simple and hassle-free.

Additionally, the connection plug incorporates an anti-reverse design that physically prevents the user from inserting it in the wrong orientation. This safeguard not only reduces the risk of damage to the connector or device but also enhances overall safety and reliability during operation.
