Swift

Commercial Robotics

Genius®

Commercial cleaning, on autopilot.

Built to meet the demands of busy commercial environments, the Swift robotic vacuum delivers powerful, consistent cleaning with minimal intervention. With a theoretical cleaning rate of approximately 100m² per hour per machine, Swift helps maximise productivity while maintaining high standards of cleanliness throughout the day.

- Automates routine vacuuming to improve operational efficiency
- Over 16,000 units operating across the UK delivering a typical return on investment in as little as 4 months
- Trusted by businesses across the hospitality sector and other commercial environments

PAIR WITH BASE

The patented charging base stores, charges and transports six robots simultaneously - ideal for multi-site or large-fleet accounts.

Swift Robotic Vacuum

- HEPA filter as standard
- Built-in sensors make safety a top priority
- Easily accessible for fast hassle-free maintenance
- Setup cleaning schedules and track cleaning performance through the app

The Swift, a smarter, more efficient solution designed to eliminate time-consuming, labour-intensive tasks. By streamlining everyday cleaning processes, the Swift frees your team to focus on high-impact touch-point sanitisation and thorough deep-cleaning work where it matters most. The result is improved productivity, consistent hygiene standards and a visibly cleaner environment, all achieved with less physical effort, reduced manual workload and more efficient use of time and resources.

Swift Robotic Vacuum Specifications

Power Source	Runtime	Suction Power	Cleaning Width	Capacity	Theoretical Range	Weight
Battery	180min	5000 PA	160mm	900ml	Approx. 100sqm/hr	3kg

Sample efficiency model – 100 bedded hotel.

Improve housekeeping productivity, reducing the labour requirement from 7 to 6 equivalent shifts per day = c. £102 daily efficiency saving.

Annual saving (365 days) x c.£102 = **£37,230.**

2 x robots per housekeeper – 12 robots @ £500 each = **£6,000.**

Annual Net saving: **£31,230.**

ROI in **less than 4 months.**

For illustration purposes only:
Pay is calculated at the current UK National Living Wage for a 21-year-old earning £12.71 per hour, plus employer National Insurance.
