Modular by design, supporting your team.

Modu is a versatile, fully configurable trolley system developed to meet the needs of modern hospitality, healthcare, janitorial and multi-service operations.

Modu helps streamline workflows, improve organisation and support efficient day-to-day operations without compromising on durability or ease of use.

Images presented are intended for artistic and conceptual purposes only and may not be a full representation of the models in the Modu range.

Secure
Designed with safety in mind, each trolley features compartments that keep valuables, detergents and tools protected at all times.

Heavy Duty
Built to endure demanding daily use, the trolleys has been rigorously tested to support up to 300kg of weight.

Quiet
Engineered for minimal disruption, the trolleys incorporate sound-dampening wheels and soft-close lids.

Sleek Design
The modern aesthetic is complemented by a high degree of customisability, allowing you to tailor your trolley.

Hospitality Trolleys

Hospitality Trolley

- Versatile service trolley made for hotels
- Built from recycled copolymer polypropylene for durability and eco-friendliness
- Offers full or half-door access with optional locks for security and hygiene
- Features sturdy wheels and base for smooth, quiet movement on carpets
- Highly adaptable with many accessories to suit housekeeping, room service, maintenance or laundry

Linen Trolley

- Linen trolley constructed from recycled copolymer polypropylene, combining long-lasting durability with an environmentally friendly design
- Features an integrated zip for easy emptying
- Designed with a sturdy base and wheels for smooth, quiet movement on carpets and heavy loads

Hygiene Trolley

- Features recyclable copolymer PP construction and a modular design
- Including silent wheels, easy-clean shelves, drawers and ergonomic handles
- Designed for medium-duty service roles requiring flexible configuration
- Various door types, bag capacities and sizes are available
- Includes integrated i-mop bracket for convenient storage and transport

Multi-Service Trolley

- Compact, versatile trolley for dusting, waste collection and cleaning
- Constructed from recyclable copolymer polypropylene, consistent with the rest of the Modu range
- Features a modular design with adjustable shelves and buckets
- Built for durability and smooth, quiet movement under heavy loads
- Ideal for settings like offices, universities, or restaurants where multiple tasks are combined
- Optional lockable doors to help secure cleaning supplies and equipment when unattended

Janitorial Trolley

- A versatile trolley that can serve as a mobile cleaning hub, holding liquids, cloths, tools and waste in one organised unit
- Multi-compartment organisation, equipped with double bucket and holders ideal for separating clean water, dirty water, cleaning tools and also features a central bag holder
- Wheels designed for easy movement across different surfaces
- Made from hard-wearing plastic and engineered for long service life
- Ideal for environments like offices, schools, factories or public spaces

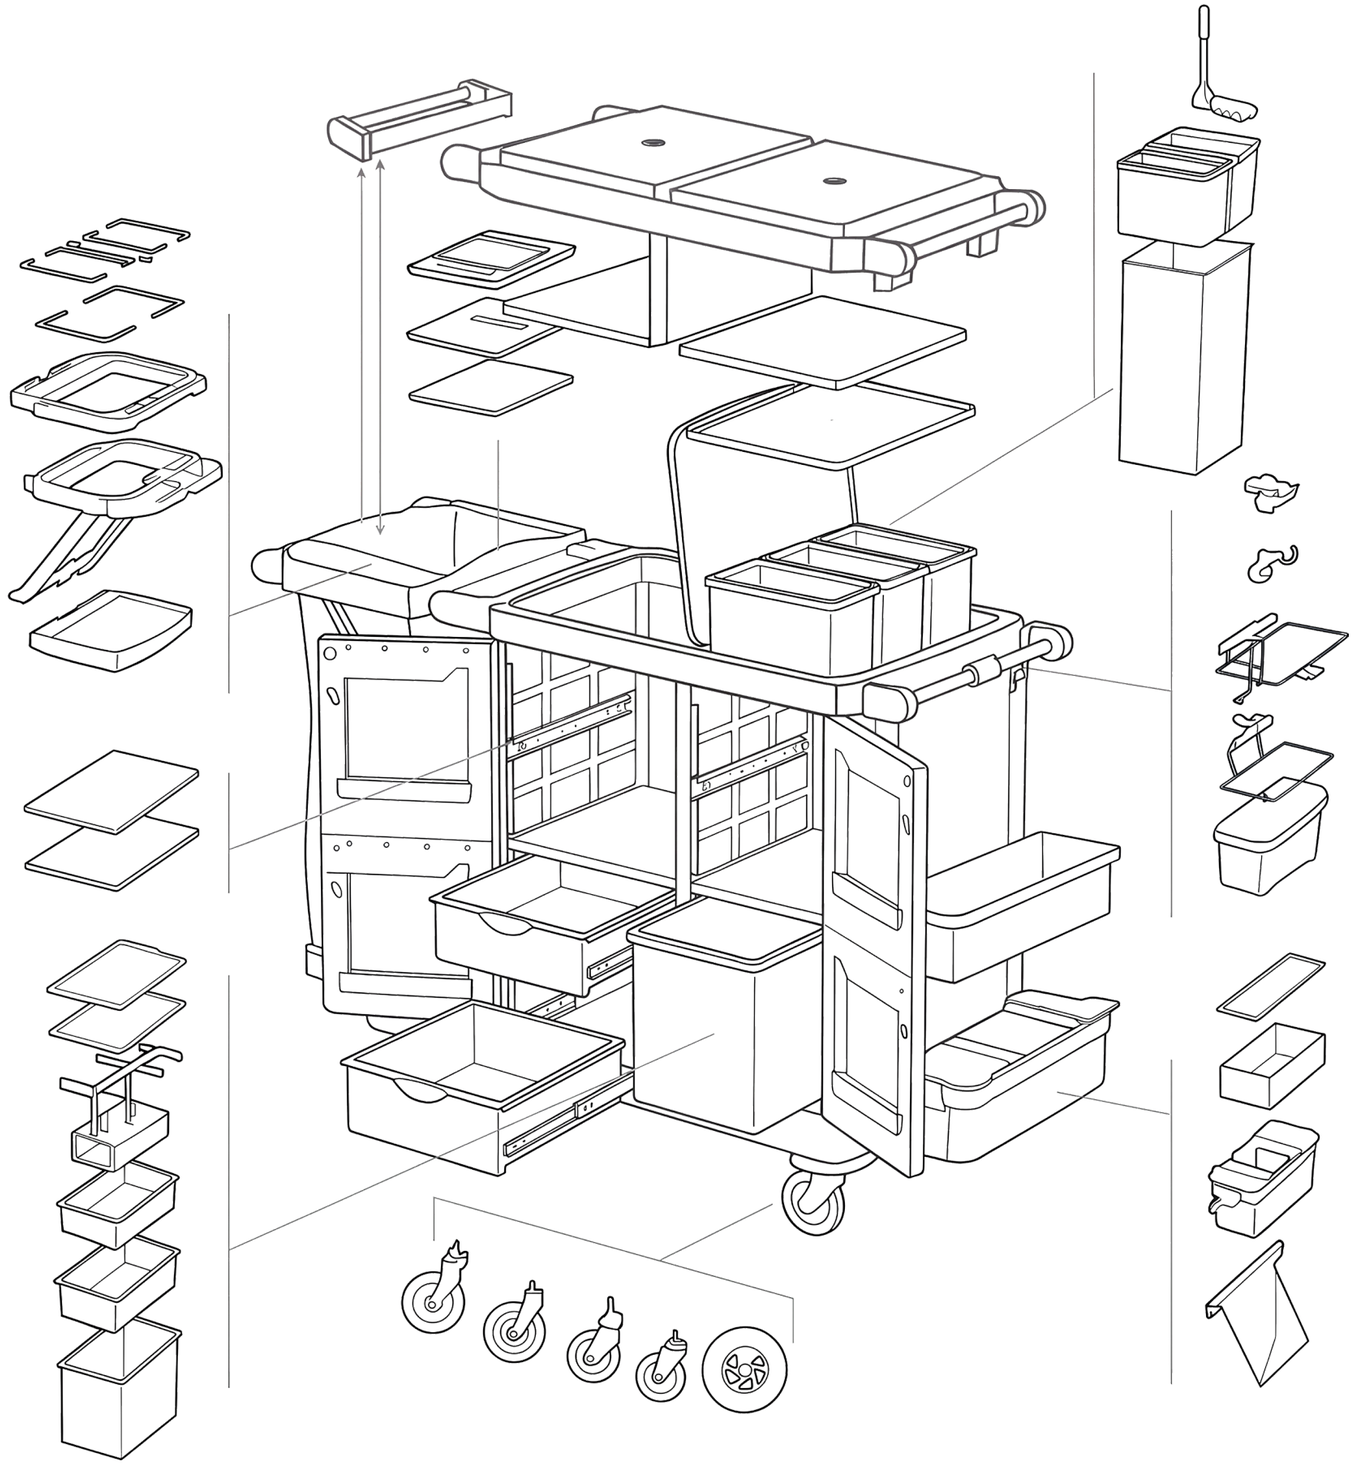

One trolley, endless possibilities.

Built around a flexible modular concept, Modu allows users to create a trolley configuration tailored to their specific requirements. From cleaning and waste collection to linen handling, housekeeping and service applications, components can be easily combined, adapted and rearranged to create the ideal solution for any task.

Its modular design also makes it easy to adapt as operational needs change, providing a practical solution that can grow with your business.

- One system offering multiple trolley solutions
- Fully configurable modular trolley system
- Easily customised to suit individual operational requirements
- Components can be configured and reconfigured as needs evolve
