Max X6

X6

At the heart of the Genius Max X6 oscillating floor scrubber is a premium AISI 304 stainless steel frame, engineered for exceptional corrosion resistance and long-term structural integrity. This robust foundation ensures the platform maintains it's performance and appearance even after extended exposure to demanding environments. Complementing it is a precision-crafted anodised aluminium base, delivering the ideal balance of lightweight manoeuvrability and the rigidity required for superior stability, load distribution and overall support.

Features & Benefits

To further enhance reliability, high-grade Precision Torx fasteners secure every component with unwavering strength, preventing loosening or fatigue under heavy use or vibration.

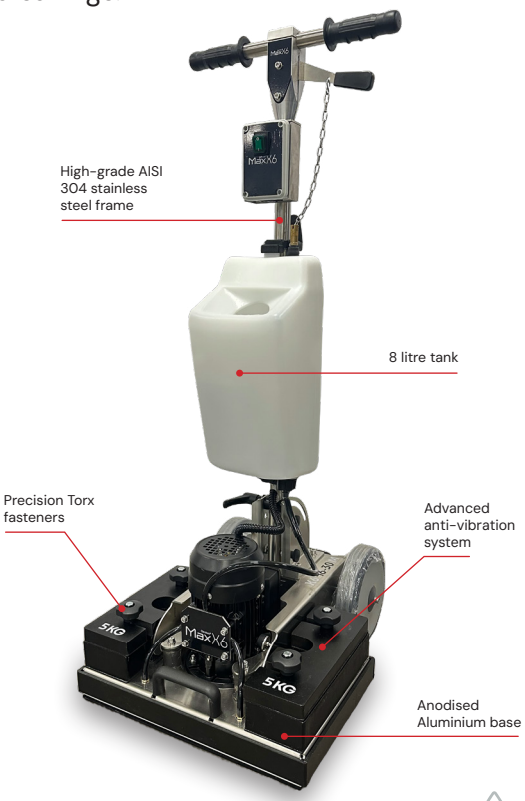

X6 Specifications	
Motor power	550W
Voltage	230V
Rotation	2760rpm
Motor height	28cm
Work surface	46cm x 30cm
Weight	45kg (25kg without ballast)
Noise level	50db
Tank capacity	8L
Cable length	15m
Handle height from the ground	120cm
Reclined handle height	40cm
Protection class	IP55
Certification	CE

Versatile - The machine remains highly versatile in both operation and transport. It's reclining handle minimises dimensions to just 40cm in height and 110cm in length for easy storage and mobility.

Ergonomic - The perfectly balanced frame and exclusive anti-vibration shock absorbers, the operator is able to direct the machine with extreme ease in complete safety.

Powerful - Driven by a 2760rpm motor delivering exceptional cleaning power and a dynamic suction effect that removes even the toughest dirt.

Economic - Efficient and sustainable, it halves working time and minimises water and chemical use, maximising productivity and savings.
